

1. K-Love is a rarity on the airways as it provides upbeat, true American value oriented programming that suits my family and friends. 2. If it were to be displaced by a LPFM, I feel that again it would be an attack on my values and the values that this country were founded upon. 3. Suits the public intrerest in providing guidance on how to behave in a civilized society, in great contrast to most other programming. It's refreshing to have a station that provides entertainment without constant reference to foul language and/or sexual inuendo.

Thanks
